Email Swipe #6

Subject:

Hey, It's Me (Your Name), We Need To Talk.

Email Body:

I want you to think about these next two questions first before reading the rest of this. If your answer is never and none, then stop reading.

1. How many times have you done a search online for something to do with your health and wellness?

2. How many products have you or your family bought over the years online or offline, including gym memberships, books, weight loss equipment or that have any thing to do with losing weight, getting healthier, or specialty vitamins or supplements?

Now, could you imagine how fast your income would grow..If?

1. You could combine online digital/affiliate marketing with offline physical consumable products, in the health and wellness industry.

2. You had access to a complete online/offline marketing system and referrals could use the exact same system as you. Nothing to set up.

Meaning a complete, lead generating system, complete with capture pages, marketing material, promotional resources, webinars, etc...Just send traffic.

Product samples, home workout system, video work out guides, nutritional supplements, etc..

This gives your team members the ability to build their team offline or offline, or both.

Believe it or not, but about 70% of people making money in mlm, affiliate marketing still do it the old school way, offline..

They do not understand the internet, nor do they want to, its to technical for them, they are totally into personal engagement in person.

3. Customers could just purchase products from you, if they do not wish to make money. Because you actually have real physical

products.

4. You not only had one incredible compensation plan, but two!

Yes two, most companies only have one.

The make money online niche, and the health and wellness niche are both absolute monsters!

People both online and off are becoming more and more health conscious every single day, this is one of the fastest growing niches both online and off.

The health market includes niches such as supplements, diets and weight loss, embarrassing problems, quit smoking and medical issues to name but a few.

EuroMonitor report that the health and wellness industry will be worth \$1 trillion globally in 2017.

Meaning there's a lot of money around for the taking, if you're willing to offer these people the ability to get fit and healthy.

Can you imagine combing the digital aspect of affiliate marketing, with the health and wellness industry, that has both digital products that can be consumed and used online, and physical products that can be consumed and used offline..?

Well there is one company poised to take advantage of all of this, and Now LifeStyle has created the very first hybrid online/offline business model, now this company is not new, they have been around 18 years helping people make more money online and get fit in the digital space .. They have solely been involved in the digital side/online, until now!

If this sounds like something you want to pursue, AND you have a strong work ethic, commitment and focus.... reach out to me.

(Important Notice) Regarding Now LifeStyle

Email Body:

A new day has begun, and I am extremely excited to be part of something that is going to be absolutely amazing..

Now Life Style is going to be epic..truly EPIC!

(Your Link)

At first I was not going to join it, and I am extremely glad, I changed my mind..

- 1.This is a program you can build offline or online.
2. Both digital products and physical products ,(highly consumable).
3. A real company, not a program owner sitting behind a desk.

GVO the host parent company, and owner Joel Therien, are no stranger to success.

Joel's plan is to build this into a billion dollar company, and he has the resources to do it.

He has integrity, and so does his companies.

The health and wellness industry is an absolute monster both online and off..

One thing I was missing from my portfolio of work from home opportunities was something with a actual physical product that is consumable.

Well not no more, Now Life Style give me the solution I have been looking for. And has a great binary comp plan, that pays to infinite depth..

I will be hitting this extremely hard permanently...

I love building long term, residual income, walk away income, meaning it keeps coming in for years and years to come.

Consumable products are great for this, online those products include, autoresponder service, web hosting, traffic, three essential things every person trying to make money online has to have in order to succeed.

And now, I finally have settled on the perfect physical products, that offline, people consume every single day, and is one of the largest and fastest growing industries.

What Joel has done, is amazing here with Now Life Style.

You will have a full lead capture system to build your team with, no coding or set up required, it is all completely done for you.

This means no friction..We are officially in pre-launch, time to build your team, so go get your spot reserved now and locked down, you are not going to want to miss this.

Is your success possible..?

Ad Body:

I think it is possible...

For anyone to be successful with Marketing....

If you decide to think about, someone putting in  
the right effort, with the right business,  
with the right attitude, it's possible, right??

I think so.

And so does anyone else who's seen any kind of  
success.

Because you then discover, that some kind of work,  
equals some kind of results.

Multiply that work. Or make it more efficient.

**MORE RESULTS!**

Is it dumb to think, it is really this  
easy??

I guess if you have the right company, the right products,  
the right help and guidance, the right comp plans..And  
the right attitude..

And most importantly, the willingness to learn..

You will be successful then, it really is as simple as  $2+2=4!$

If you think it is as well..

Then let us help you on your journey..
